

Today

Written By Fatiniza Gamarra Ponzon

Verse 1

How many days have we left?

What have we done to leave our names on this earth?

Will it be the end?

Will it be different if we take action today?

Today! Today it's the day!

To make the changes needed to live to tell the tale

Today! Today it's the day!

When we start paddling to make a difference

Bridge:

Today is the day!

To ensure our future's fate

Our race, our sea, our home, our place, our world, our space!

Verse 2

Where do you plan to stay?

When the trees are gone and there's nothing to kill the thirst

Coral's fading away

Sure! It'll be different if we take action today

Today

Written By Fatiniza Gamarra Ponzon

Bridge

Today is the day!

To ensure our future's fate

Our race, our sea, our home, our place, our world, our space!

Chorus

Can you hear the birds sing loud? Can you smell when land is wet?

Can you hear the call of whales offshore asking to be saved?

It's today! We have to move, stop the bombs the violence

Save the world and sing with me to the ocean to the rain

Save our world and sing with me to the ocean to the rain
